## UNLOADING Instructions for Luggage Bay Bike Racks

**1** As the bus approaches your stop, **inform the bus driver that you will be unloading your bike**. This allows the driver to position the bus so there is enough room for the rack extension. It also ensures that the driver will unlock the luggage bay door and wait until you are clear of the bus before leaving the stop.

**2** Repeat steps 3 through 6 of the loading instructions. If removing your bike from the upright position (upper skin), be sure to remove straps from tires first.

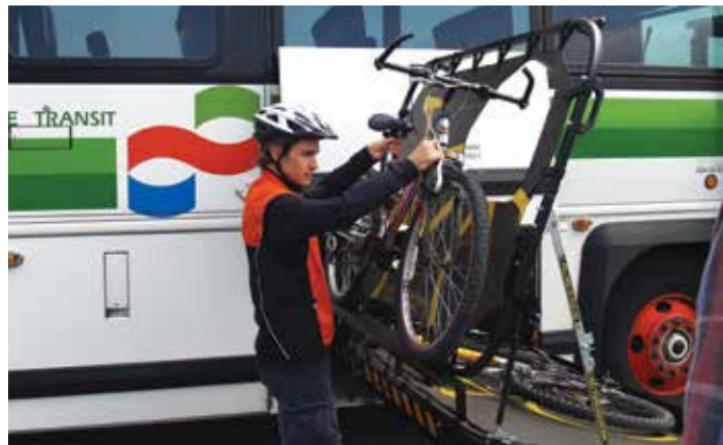

**3** Repeat steps 8 through 10 of the loading instructions.

**4** Step away from the bus to the curb with your bike and all your belongings. Wait until the bus pulls away. **Never proceed directly in front of a bus into traffic.**
